Qu'est-ce que Paychek Safeguard ?

Un garde-fou local : vos règles de discipline deviennent des contraintes techniques pendant le trading.

- Définit les règles dans le logiciel Windows (Safeguard)
- L'addon NinjaTrader applique / affiche le statut en temps réel
- Si une règle est violée → trading blocked (ordres refusés quand Blocking on)
- Fonctionne en local (127.0.0.1) — le PC doit rester allumé

Deux composants, un lien local

1. Logiciel Windows

UI Safeguard : plan de règles, capital, engage discipline, licence. Serveur local HTTP.
2. Addon NinjaTrader 8

Fenêtre Discipline : Connected, OK / BLOCKED, compteurs, Sync zones, Blocking on.
3. Lien temps réel

127.0.0.1:8080 · secret partagé. Sans Safeguard ouvert = pas de garde-fou.

The screenshot shows a web application window titled "Paychek Safeguard". The interface is dark-themed. At the top, there's a header bar with the Paychek Safeguard logo, a "LITE" badge, and buttons for "UPGRADE" and "CLEAR LICENSE". To the right of the header, it says "TRADING PLATFORM" with the "NinjaTrader" logo, a green status indicator, "CAPITAL 2000 €", and "USAGE HOURS 09:00 - 22:00".

The main content area is a modal window titled "Session settings". It has a close button and a "Save" button. At the top of the modal, it says "Active session ON" with a toggle switch and "Rules saved — everything is up to date." Below this, there are two tabs: "12" and "24", with "24" being selected. The "Start" time is set to "9 : 0" and the "End" time is set to "18 : 0". The "Timezone" is set to "Europe/Paris" with a dropdown arrow. At the bottom of the modal, there's a section titled "Ready to follow your plan?" with two buttons: "Enabled" (highlighted in green) and "Disabled". Below these buttons, it says "3 days left - Jul 30, 2026" and "Auto-refreshes every 30 s".

Quota de trades / jour

- **Max trades / day** — plafond d'ouvertures (ex. 5)
- Compteur **Trades taken today** + restants dans l'addon
- Quota atteint → nouveaux trades bloqués
- Anti-overtrading après une série

PRÉREQUIS

Environnement supporté

- Windows 10 / 11
- NinjaTrader 8
- Kit PaychekSafeguard-Windows.zip (paychek.pro)
- Safeguard démarré pendant le trading
- Réseau local libre sur le port (défaut 8080)

Précisions importantes

À lire avant utilisation

- Pas un conseil en investissement — outil de discipline / risque.
- Le trading comporte un risque de perte en capital.
- Ne remplace pas broker, prop firm, ni risk management personnel.
- Nécessite NT8 + Safeguard ouvert (serveur local).
- Captures illustratives — l'UI peut évoluer.
- Compatibilité / résultats non garantis (PC, data, VPS, version NT).
