PRODUTO

O que é o Paychek Safeguard?

Uma proteção local: as suas regras de disciplina tornam-se restrições técnicas durante o trading.

- Defines rules in the Windows software (Safeguard)
- The NinjaTrader addon applies / displays status in real time
- If a rule is breached → trading blocked (orders rejected when Blocking on)
- Runs locally (127.0.0.1) — the PC must remain on

Dois componentes, uma ligação local

1. Windows software

Safeguard UI: rule plan, capital, engage discipline, licence. Local HTTP server.
2. NinjaTrader 8 addon

Discipline window: Connected, OK / BLOCKED, counters, Sync zones, Blocking on.
3. Real-time connection

127.0.0.1:8080 · shared secret.
Without Safeguard open, there is no safeguard.

The screenshot shows a web browser window titled "Paychek Safeguard". The interface is dark-themed. At the top, there's a header bar with the Paychek Safeguard logo, a "LITE" badge, and buttons for "UPGRADE" and "CLEAR LICENSE". To the right of the header, it says "TRADING PLATFORM" with the NinjaTrader logo, a green status indicator, "CAPITAL 2000 €", and "USAGE HOURS 09:00 - 22:00".

Below the header, there's a main content area. At the top of this area, there's a toggle for "Active session" which is currently "ON". To its right, a green message says "Rules saved — everything is up to date." with "Close" and "Save" buttons. Below this is the "Session settings" section. It has a format selector with "12" and "24" options, where "24" is selected. Under "Start", the time is set to 9:00. Under "End", the time is set to 18:00. The "Timezone" is set to "Europe/Paris" in a dropdown menu. At the bottom of the settings section, there's a "Ready to follow your plan?" toggle which is currently "Enabled". Below the toggle, it says "3 days left - Jul 30, 2026" and "Auto-refreshes every 30 s".

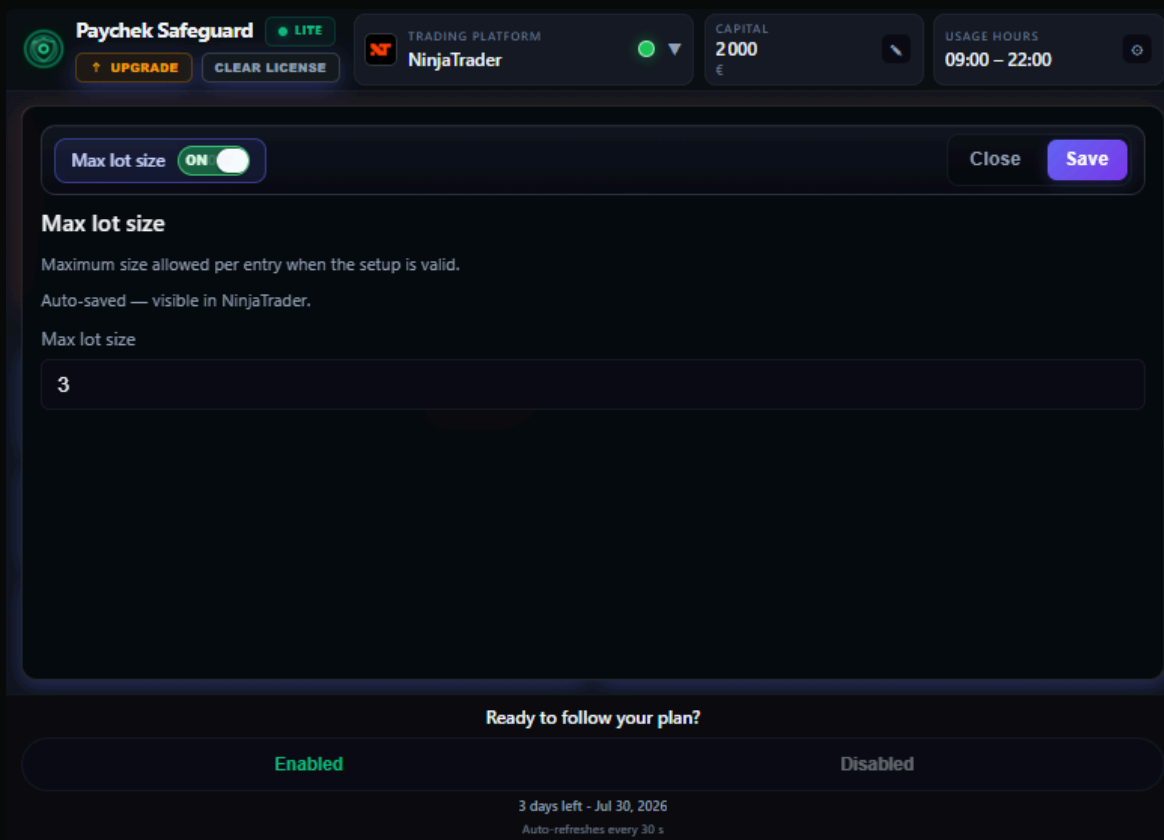

Limite de trades / dia

- **Max trades / day** — entry limit (e.g. 5)
- Counter **Trades taken today** + remaining in the addon
- Limit reached → new trades blocked
- Prevents overtrading after a streak

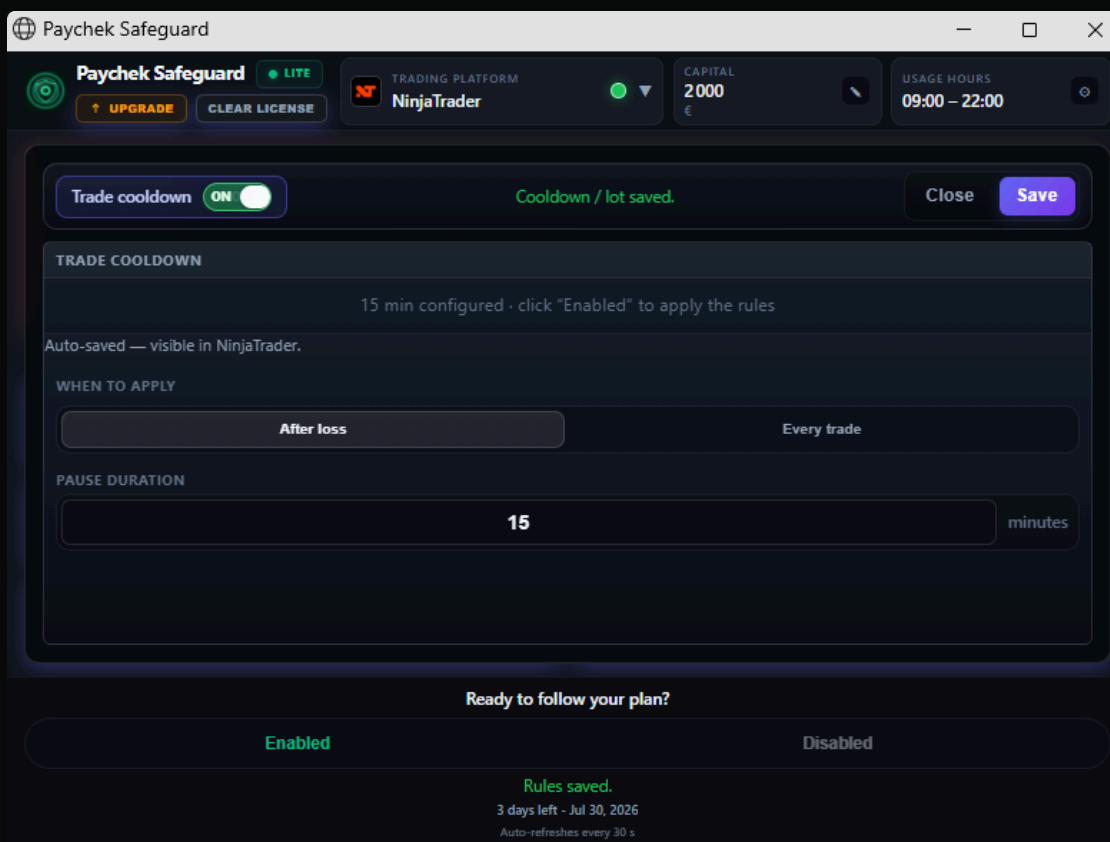

Tamanho máximo

- **Lote máximo size** — limit per entry (e.g. 3)
- Prevents emotionally « sizing up »
- Visible in NinjaTrader after Save / Enabled
- Addon status: Active · max N contract(s)

Intervalo entre trades

- Configurable duration (e.g. 15 min)
- **After loss** ou **Every trade**
- Visible in NinjaTrader after Save / Enabled
- Prevents revenge trading

Risco por trade

- Amount (€) + percentage (%)
- E.g. €200 · 10% of capital
- With Ninja + Enabled: closes if floating loss exceeds the threshold

The screenshot shows the 'Paychek Safeguard' settings window. At the top, there's a header with the Paychek Safeguard logo, a 'LITE' badge, and buttons for 'UPGRADE' and 'CLEAR LICENSE'. To the right, it shows 'TRADING PLATFORM NinjaTrader', 'CAPITAL 2000 €', and 'USAGE HOURS 09:00 - 22:00'. The main section is titled 'Max loss per trade settings' and includes a toggle for 'Risk / trade' which is currently 'ON'. Below this, it states 'Rules saved — everything is up to date.' and has 'Close' and 'Save' buttons. The settings are divided into two columns: 'Amount (\$)' with a value of '200' and 'Percentage (%)' with a value of '10'. At the bottom, there's a section titled 'Ready to follow your plan?' with 'Enabled' and 'Disabled' buttons. A footer note indicates '3 days left - Jul 30, 2026' and 'Auto-refreshes every 30 s'.
